March 21, 2017

To Residents of Foster and Glocester:

Attached is a copy of the Foster-Glocester Regional School District Budget for the 2017/2018 school year, which was approved by the Regional School Committee on March 7, 2017.

The Foster-Glocester Regional School District is proposing a budget for the 2017/2018 school year that supports and enhances our District's high-quality educational system. This budget was developed in a fiscally responsible manner to provide our students with a competitive edge. The budget includes the necessary resources to advance our school improvement priorities. It supports our work towards a personalized, relevant, and collaborative educational system supported by technology that is designed to:

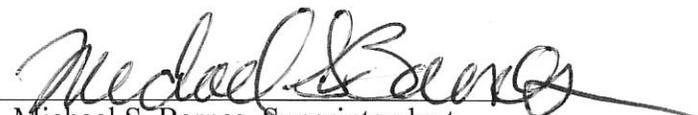

- ❖ graduate students proficient in the knowledge and skills necessary to succeed in a global digital society;
- ❖ deliver innovative learning experiences, aligned with students' college and career interests, that prepare our students to compete successfully in a global economy;
- ❖ provide curricular experiences with real world applications and learning in and out of school; and
- ❖ prepare students for careers in high demand and/or high growth areas in local and national labor markets by providing rigorous courses and programs.

To support this work, the 2017/2018 proposed budget reflects a:

- **.96% Increase in Total Local Appropriations**

The budget strategically invests in curriculum, instructional programs, equipment, facilities, and student access to technology so that they can be well prepared for post-secondary education and careers in a global economy. While making these strategic investments, this budget adjusts for reductions in revenues from the state and uses fund balance for one-time expenditures to support educational priorities.

Sincerely,

Michael S. Barnes, Superintendent

FOSTER-GLOCESTER REGIONAL SCHOOL DISTRICT FY 2018 BUDGET

2017/2018 BUDGET OVERVIEW

The Foster-Glocester Regional School District 2017/2018 budgeted revenues were built on the following assumptions using both internal analysis and information received from both the state and local revenue projections, as well as budget committee insight.

- ❖ Projected net decrease in State Aid and Federal Operational Aid of 1.82%, in the amount of approximately \$93,000 as a result of the ongoing funding formula decreases and reductions in federal aid.
- ❖ Projected net increase of approximately \$621,000 in tuition revenue
- ❖ Budgeted use of Debt Service Set-Aside Fund balance in accordance with multi-year plan in the amount of \$115,232.
- ❖ Local Appropriation increase of .96% (.46% in operations and .50% in capital) represents an increase to each town's respective budget over the prior fiscal year town budget:
 - **Foster** – the projected increase over the 2016-17 total town budget is 1.98%
(If the town uses \$90,000 from the student population swing fund the increase is approx. 1.27%.)
 - **Glocester** – the projected decrease over the 2016-17 total town budget is -0.38%.
- ❖ Budgeted use of Capital Fund Balance to assist in offsetting the capital expenditures of approximately \$595,000 for high school physical education improvements (\$290,000) and middle school athletic fields (\$220,000), sound suppression systems in field house at HS (\$50,000) and gym at MS (\$35,000).

The Foster-Glocester Regional School District built the 2017/2018 budgeted expenses based on the educational requirements and needs of our students and projected expenses using information from internal and external sources. The expenses were reviewed, adjusted, and reallocated to maximize the use of funds on educational priorities.

- ❖ Projected net increase in educational programs of 11.78%, or approximately \$236,000, due to increases in technology purchases (including new laptops & chromebook purchases), expansion & enhancement of college and career pathways, academic program course offerings, E-books/textbooks, equipment, supplies and instructional materials. This includes.
 - Investment in new courses in college writing and bioinformatics, among others,
 - Investments in a new computer lab for the Art Pathway at the HS,
 - Investments in a new stage piano and piano lab for the Music Pathway at the HS,
 - Investment in Agriculture program at the MS,
 - Investment in PLTW pathways at the MS including new computer lab,
- ❖ Projected increase in employee benefits of 3.84%, or approximately \$163,300 due to increasing pension costs, increasing healthcare premiums, data processing costs for healthcare reform and Affordable Care Act Fees.
- ❖ Projected increase to salaries of 3.4%, or approximately \$391,589, due to raises and increases in the number of support service personnel include a reading teacher, a school psychologist, a school resource officer (2nd half of year), and other support positions.

FOSTER-GLOCESTER REGIONAL SCHOOL DISTRICT FY 2018 BUDGET

2017/2018 STRATEGIC GOALS AND OBJECTIVES

This proposed budget purposefully allocates resources to meet the educational mission of the district and student learning needs. Four years ago, in order to foster greater coherence among the regional school district and the Foster and Glocester elementary school districts, representatives from all three districts met over four days with a facilitator to craft a five-year Tri-District Strategic Plan. The team identified five broad goals explicitly aligned to the requirements of the Rhode Island Basic Education Program that also meet the needs of the students of these communities. The following are the five goals the Tri-District Strategic Planning Team identified for the 2013-2018 school years:

- ❖ GOAL # 1: Develop and implement a rigorous, student-centered, technologically enhanced k-12 curriculum that prepares students for varying post-secondary career and college pursuits, in the global, digital age.
- ❖ GOAL # 2: Create and maintain a culture in which our students are educated in a personalized learning environment that supports each student's academic, career, social and emotional needs.
- ❖ GOAL # 3: Communicate with, collaborate with and engage families, businesses and the community in partnerships to maximize resources for and enhance students' academic, career and personal/social development.
- ❖ GOAL # 4: Create and maintain a cohesive system that the entire school community uses for collecting, analyzing and using data purposefully at the student, class, school and district levels to improve individual student academic achievement, support career, social and emotional growth, and to drive instructional decisions.
- ❖ GOAL # 5: Uphold the commitment to make fiscally responsible decisions that invest thoughtfully in physical and human resources to provide a high quality education for every student.

Four years ago we expanded our high-quality academic education to include meaningful college and career pathways with state-of-the-art facilities designed to provide students with a competitive edge. Ponaganset's pathways are organized into multi-year sequences of courses that lead to college credit and/or industry certification. We have partnership teams with representatives from industry and higher education to assist us in the design and implementation of these pathways. Presently, we have seven pathways approved by the RI Department of Education: **1.** Engineering (includes a competitive Robotics team); **2.** Biomedical Science; **3.** Computer Science and Information Technology; **4.** Agriculture and Natural Resources (Animal and Plant Pathways); **5.** Music and Performing Arts (Instrumental, Chorus, and Music Technology Pathways); **6.** Visual Arts, and **7.** Materials and Manufacturing. We also have companion programs to these pathways in our middle school that provide our students with career awareness activities.

Total	\$ 15,195,436	\$ 15,340,884	\$ 145,448	.96%

SUMMARY OF LOCAL APPROPRIATIONS FY 17 AND FY 18

The District Proposes a .96% Increase in Local Appropriations for the 2017/2018 Year:

The District has worked diligently to develop fiscally responsible budgets under the 4% cap allowed under Senate Bill 3050. Since FY2008-2009, the average cumulative increase of our budgets, in local appropriations, is less than **1.15%**. Our previous budgets have resulted in the following changes in local appropriations: **0%, 0%, .91% increase, .24% decrease, .19% decrease,** and increases of 2.18%, 3.82% and 2.97%. These changes have occurred during a time when the State aid provided to the district has been declining.

This year's proposed .96% increase in operations and debt service (combined) will allow us to continue our successful efforts to maintain and improve our educational system. While we recognize any increase is difficult, our history of budget development over the past nine years demonstrates our fiscal responsibility to the communities of Foster and Glocester. A budget increase of .96% is necessary to enhance our educational system and support our educational priorities with minimal impact to the local taxpayers.

NOTE: In accordance with Regional Charter, \$13,678,799 will be appropriated from the towns of Foster and Glocester based on student enrollment, and \$1,662,085 will be appropriated based on the equalized weighted assessment of property values.

PROPOSED BUDGET IMPACTS FOR THE TOWNS OF FOSTER AND GLOCESTER

The District is bringing forward a **.96%** budget increase for the 2017/2018 year. Due to the changing enrollment patterns between the towns of Foster and Gloucester, and the Equalized Weighted Assessment Values, Foster will experience an estimated increase in total local appropriations by **\$253,326** due to Foster's proportion of students remaining consistent and Gloucester will experience an estimated decrease in local appropriations in the amount (**\$107,878**) due to Gloucester's proportion of students decreasing.

*These figures are based on student enrollment that was verified with the Foster and Gloucester tax rolls.

Using the amount to be increased over each town's 2016-2017 budget as a baseline and adding the amount of the increase in the Regional budget, the projected increase in total local appropriations for each town is as follows:

- Projected increase to the town of Foster in relation to the town budget is 1.27%
(If the town uses \$90,000 from their student population swing set-aside funds. If they do not use these funds the projected increase is 1.98%)
- Projected decrease to the town of Gloucester in relation to the town budget is (-.38%)

FY 2018 BUDGET**

BUDGETARY INCREASE BY PROGRAM AREAS

The Fiscal Year 2018 (FY 18) Budget can be summarized by examining the major program expense areas. As you can see in the table below, the proposed FY 17 Budget reflects an increase in the operating expenditures by **\$947,622 or 4.91%**

Budget Areas	FY 18 Increase (Decrease)	
Salaries	\$ 391,589	3.40%
Employee Benefits	163,318	3.84%
Educational Programs	235,731	11.78%
Central Office Facility Operations	162,597	23.09%
District Wide Facility Operations	(5,613)	-.67%
Total Increase	\$ 947,622	4.91%

Salaries

Total Increase: \$391,589

The Salaries Budget consists of all salary expenditures associated with the employing all teachers, non-certified, administrators, substitutes, coaches and part-time employees. The salary increase is due in part to adding a new reading teacher, school psychologist, and other teachers and support personnel. It also represents the net impact of contractual annual step increases, contractual salary increases, and repositioning of staff.

The contract for the NEA Ponaganset teachers expired June 30, 2016 & Ponaganset NEARI/NEA expired June 30, 2015. The negotiation process is occurring this spring and estimates have been used for the 2017-2018 budget. Actual negotiated amounts will affect salary and benefit costs.

BUDGETARY INCREASE BY PROGRAM AREAS, Continued

Employee Benefits

Total Increase: \$163,318

The Employee Benefits Budget consists of all employee related benefits and payments including, but not limited to, pension contributions, social security, Medicare, workman's compensation, health, dental and life insurance payments, as well as retiree benefit costs.

The benefit expense is the net impact of contractual health care co-payments for employees based on staffing assignment, healthcare premium increase, pension rate increase, and additional fees mandated under the Affordable Care Act. The contract negotiations stated above may impact these budgeted numbers.

FOSTER-GLOCESTER REGIONAL SCHOOL DISTRICT FY 2018 BUDGET

Educational Programs

Total Increase: \$235,731

The School Program Budget includes all expenditures of instructional materials used in association with the education of Ponaganset Middle School and High School students. Additionally, the school program budgets include all expenses associated with the management and facility maintenance of the middle and high schools.

The educational program increase is due to the increase of student-use technology purchases in a majority of our programs and instructional materials associated with the implementation, expansion, and enhancement of our course offerings in various programs at both schools.

Central Office Facility Operations

Total Increase: \$162,597

The Central Office Facility Operations Budget includes all items associated with the Superintendent's Office, Business Office, and Central Operations including but not limited to network services, support services, payroll and human resources services, supplies, insurance payments, legal fees, and school committee related expenses. The primary increase for central office facility operations is due to increases in district wide software, new accounting software, and the partial funding of a new School Resource Officer (SRO) position for the second half of the year.

District-Wide Facility Operations

Total Decrease: (\$5,613)

The District Wide Facility Operations Budget includes all out-of-district tuition costs, general fund school lunch costs and district wide facility operation costs (that are not readily allocated to a specific school location).

GRANT FUNDS RECEIVED THAT SUPPLEMENT EDUCATIONAL PROGRAMS

Over the past four fiscal years the district applied for and received over ***\$520,000** in State grants to enhance the Bioscience pathway, Materials & Manufacturing, Engineering, and Biomedical Pathways.

**These are additional grants received by the district outside of Federal Title funds and Perkins funds; that include CTE funds, Race to The Top, Wireless Classroom initiative, Alternative Energy, among others.*

DEBT SERVICE SET ASIDE FUNDS

Included in the 2009/2010 (FY 10) debt service appropriations was an amount equal to **\$1,105,359** in debt service set aside funds. The funds were received by the District from the towns of Foster and Glocester in conjunction with the Town's 2010 debt service appropriation payments.

The District is budgeting the use of **\$115,232** of debt service set aside funds in the 2017/2018 budget to offset the debt service payment. The remaining debt service set aside funds will be budgeted to offset debt service payments in future years.

FY 2018 BUDGET**

GENERAL FUND UNASSIGNED FUND BALANCE

The following is an analysis of the District’s unassigned fund balance. Fund balance is similar to a “savings” account. It is the surplus/deficit after all monies have been collected and all bills have been paid. This money should only be used for one time purposes; otherwise use of these funds will result in a structural deficit if funds are repeatedly expended without a matching revenue stream. By maintaining a fund balance, the District has avoided financial difficulties and has met all financial obligations despite mid-year cuts in State Aid, late payments from a town, and Housing Aid reimbursements that arrive after debt service has been paid to the respective banks.

In accordance with the District’s spending policy, the district is expected to maintain an unassigned fund balance equivalent to two months of general expenses or 8% of the total general fund budgeted operating expenditures, whichever is lower.

Since the use of fund balance is not a constant funding stream, it has been the District’s practice to use fund balance only for one-time purchases, rather than items and/or positions that would generate a structural deficit.

Audited Unassigned General Fund Balance 6/30/2016:	\$833,273
Audited Assigned/Committed General Fund Balance as of 6/30/2016:	\$1,377,423
Total Audited General Fund Balance as of 6/30/2016:	\$2,210,685
<i>Budgeted Use of Unassigned Fund Balance for FY 2018:</i>	<i>\$117,000</i>

	FY 16 PRORATION ADJUSTMENT: \$ 15,533	\$ (15,533)	

During the budget development process, operating costs are allocated to the towns on an estimated basis using the October 1 census of student enrollment of the year in which the budget is developed. For example, the fiscal year 2017 (FY 17) operating budget was allocated based upon the enrollment in our schools as of October 1, 2014. The October enrollment figure is a snapshot of enrollment on one of 180 days in the school year.

Once a full school year has been completed, it can be determined what the actual full-year enrollment was. The difference between the census data and the 'actual' enrollments is computed and used as a basis for making the 'pro-ration adjustment'. Thus, as part of the allocation of the FY16 appropriation between the towns, the pro-ration adjustment is included in the 'allocation of operating budgeting' schedule that is included in this budget packet. Based on the FY16 pro-ration adjustment calculation, Foster receives a increase in its allocation of the operating budget of **\$15,533** and Glocester sees a decrease in its allocation by **\$15,533**.
